## CUSTOMIZED DESIGN TO PERFECTLY FIT YOUR LOCATION ANYWHERE IN THE WORLD

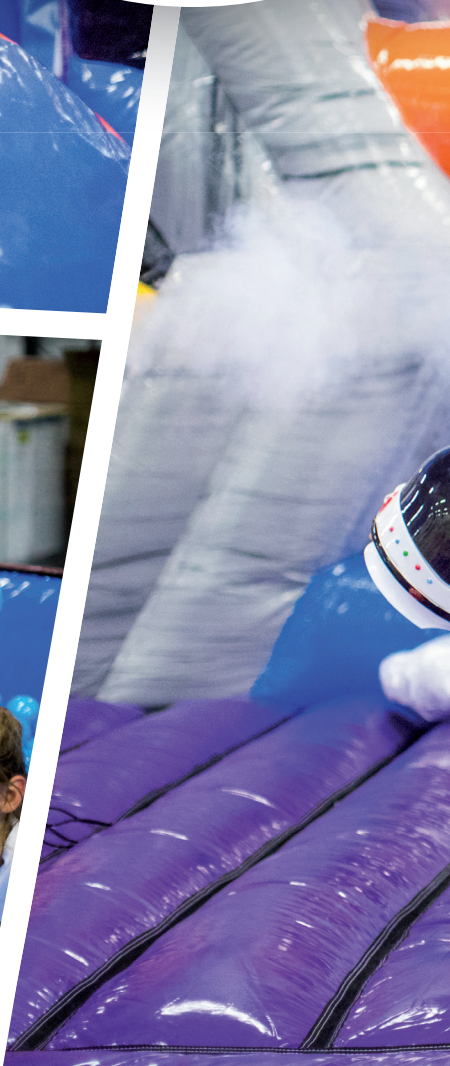

JB offers a big variety of inflatables, ranging from bouncy castles, inflatable slides, interactive walls to obstacle courses and enormous inflatable parks. Our creative design team is happy to start working on your design. Do you already have an idea about the inflatable park you want to build? Share it with us, and we will design it for you. If you are still in search, our creative design team will be happy to guide you through attraction options, color combinations, and themes.

### **JB Inflatables has high standards for all its products**

To guarantee high quality we only use selected PVC sheets of 650 grams per m<sup>2</sup>, which are very durable and colorfast. While making the bouncy castles we ensure that the seams are double-stitched and vulnerable points are stitched at least four times, a reinforcement band may also be used. The jumping surface is always stitched six times, this ensures you a park that you can exploit for many years.

Sheffield,  
United Kingdom

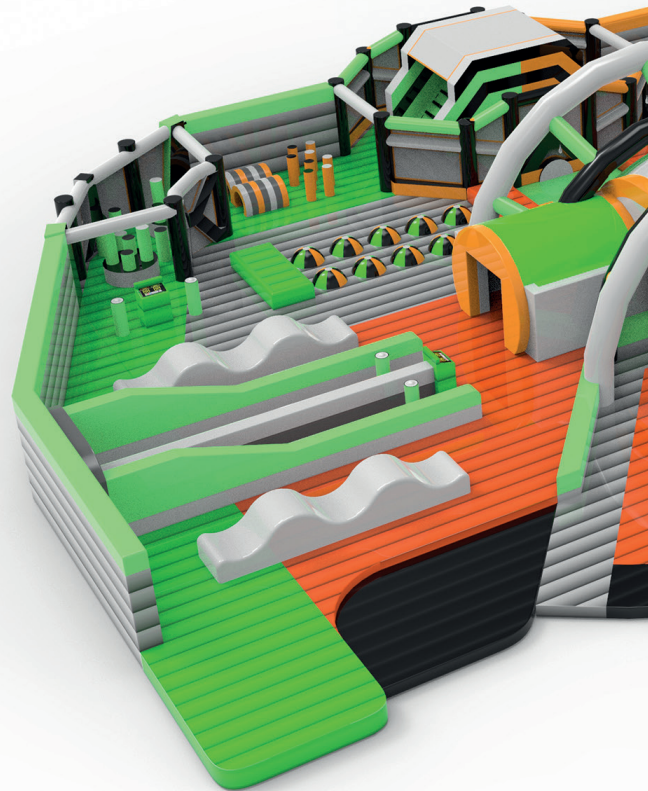

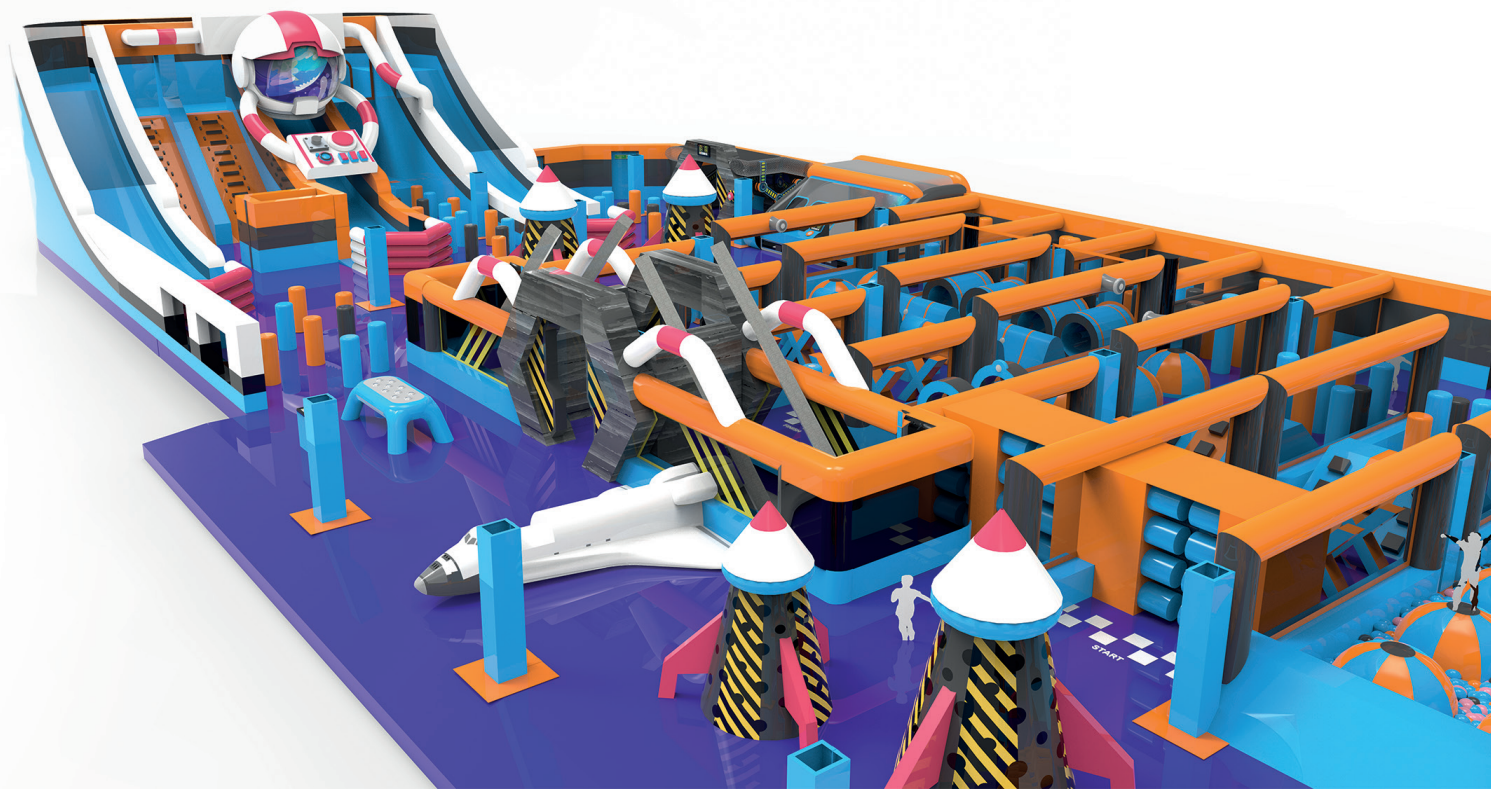

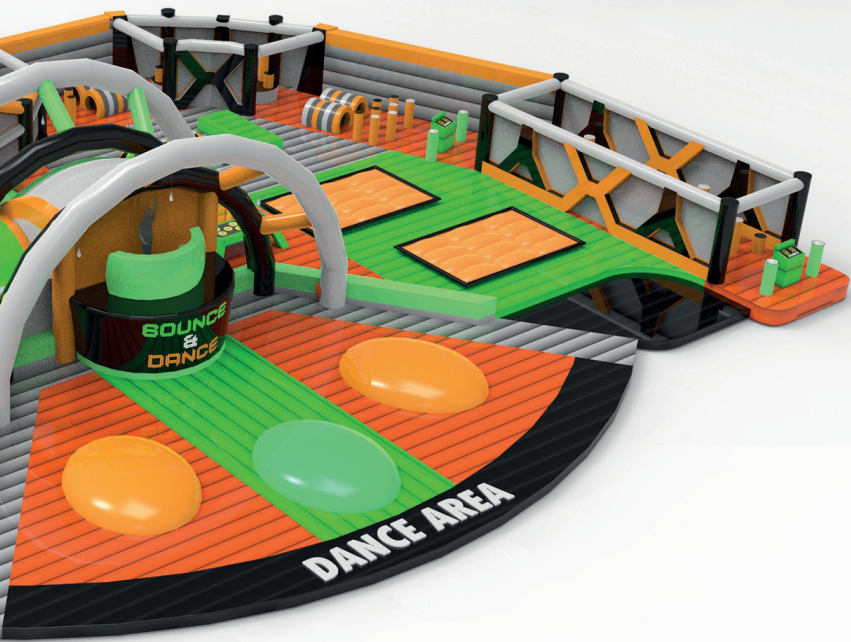

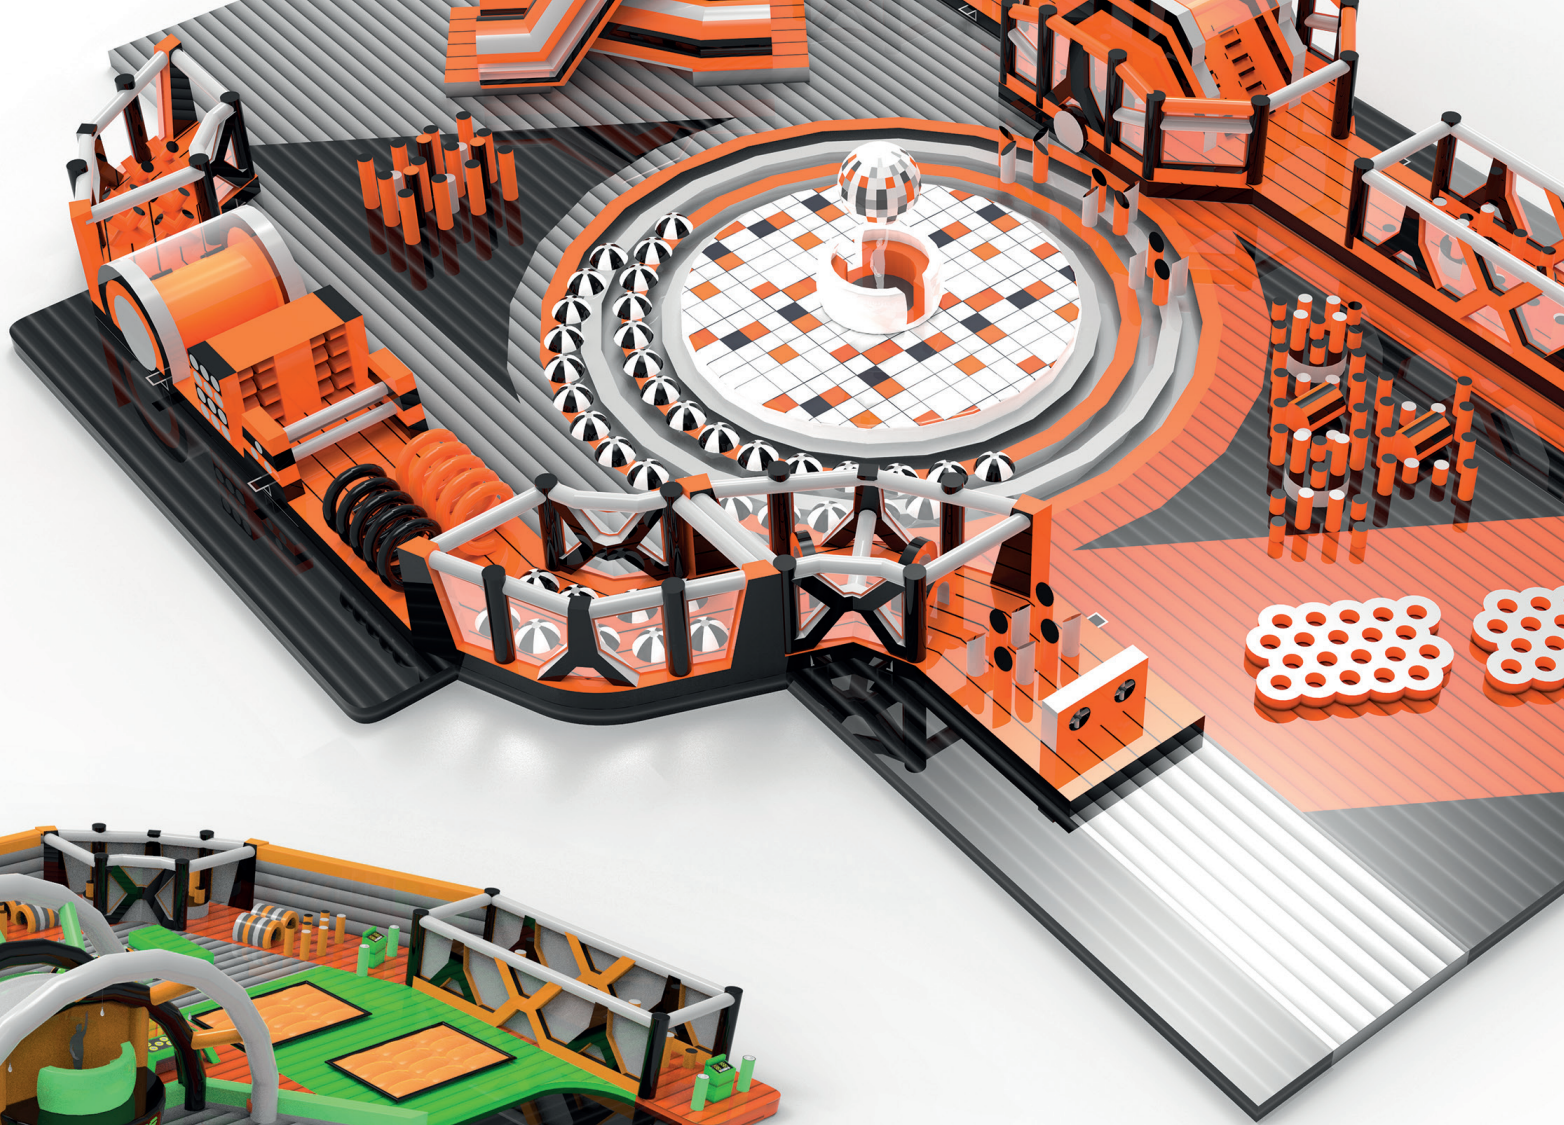

# HOW DO WE BUILD YOUR INDOOR PARK?

*We have experience in building the indoor park to your exact desire. The process of creating your indoor park as a turnkey project consists of the following steps.*

- 1.** The process usually starts with you contacting us. We can be reached by e-mail, phone or website.
- 2.** Provide us with information about your ideas, concepts, company identity, and preferences and we will start working on your project.
- 3.** Based on the information provided, we will share visuals of previous projects along with a price indication.
- 4.** The next step is to design **your** custom indoor park. We will be closely in contact to deliver the very best and unique design.
- 5.** Get the best experience of your future indoor park by **VR** (virtual reality). The final design will be sent to you as a video. Experience the design from your customer's perspective.
- 6.** Your indoor park will be adjusted based on your feedback.
- 7.** You are the one who determines the possibilities of your indoor park. We will assist you and come by to take exact measurements and inspect the space of your future indoor park. This enables us to prevent future problems and build the perfect park.
- 8.** Now the production starts. During this period we will contact you frequently to provide you with updates.
- 9.** 10 weeks after the start of the production, it's time for the delivery and installation of your indoor park. Together we install your indoor park.

# DREAM BIG WITH JB®

- ✓ *Worldwide installation*

## CREATORS OF GREATNESS

At JB we strive to make your day great. With our 15 years of experience we make people jump for joy all over the world. Often literally. What are we good at? We innovate, implement and deliver inflatable attractions in a grand way and make your day, party, event, brand or company great. Give us a challenge and we will tackle it. So we dare to call ourselves a proud name of "Creators of greatness".

**Our question to you:**

How great can we make your adventure?
